Recycled Cartonboard

from MM Board & Paper

Cartonboard and paper are the most recycled packaging materials in the world. Fibres can be reused up to 25 times – and what better way than to be recycled in one of our recycled cartonboard grades? Top performing products from one of the world’s leading producers.

In September 2024, we introduced new names for our recycled cartonboard products. To help you easily identify your preferred cartonboard, we have created a simple reference list that outlines the new names for each product.

Where our recycled
cartonboard products
come from:

- **MM FROHNLEITEN** (Austria)
- **MM GERNSBACH** (Germany)
- **MM NEUSS** (Germany)
- **MM KOLIČEVO** (Slovenia)

Our Duplex Cartonboard Products:

① Recycled cartonboard with a grey reverse side

Our well-known MCM® top brand serves as the basis for all our duplex cartonboard products.

The Allrounder: **MCM®**

Your reliable friend. Our duplex board for all occasions that knows exactly what you need. Our multi-talent for (almost) any application.
